Literacy Tips

Using a few simple strategies will make a significant difference in helping your children develop into good writers.

- Be Creative
- Encourage your child to write and perform skits or puppet shows
- Set aside time for other family members to see the performance

School Assemblies:

We have various celebrations here at school during our school assemblies. These vary from month to month and include such events as:

- Student Recognition Assemblies
- Celebrating Various Cultural Events
- School Performances/Choir Presentations

Math Tips

How to help children develop their math skills:

- **Start Easy and Work Up!**
Once they have the hang of counting by 1s, introduce skip counting, such as counting by 2s and 5s.
- **Use household items for counting practice.** Practice adding/subtracting with objects found at home like spoons or pots/pans. When they have become good at these skills, move on to simple multiplication.

Healthy Living Tips:

April is Dental Health Month!
Remember – TAKE GOOD CARE OF YOUR TEETH!

- Oral Health begins with clean teeth. Brush your teeth at least twice a day with fluoride toothpaste and soft toothbrush. When you brush...do not rush.
- It is important to floss every day because you cannot reach the tight spaces in between your teeth or under the gum line with a toothbrush.
