7. SAC Survey

Jessica Upshaw

The main purpose of this survey is to gather feedback from SACs/CECs on the current challenges to hearing local voice as well as the opportunities that exists for enhancing local voice.

Local voice refers to the values, opinions, beliefs, perspectives, and cultural backgrounds of the people in a school community—including students, school staff, parents/guardians, and local citizens. Enhancing local voice means having the opportunity to provide meaningful feedback and input based on your experiences and the unique needs of your school community to inform education policy and decision making to support student learning and well-being.
